Mandarin for Foreigners is **compulsory discipline** regardless of the course you choose. The instruction language at classroom is English.

Instruction language at **School of Foreign Languages** is the **target language**(English, Spanish, Japanese and Portuguese), with the assistance of Mandarin at the classroom. The Instruction language at other schools is Mandarin.

Student will receive the guideline to accomplish application process after SUSE confirms nomination list from partner university.

SUSE has a comprehensive range of disciplines covering 9 categories, namely, engineering, science, management, education, literature, history, art, law and economy. We can receive international exchange students in areas above, but all courses are taught by Chinese language, which is very difficult for students to follow. We do suggest students of UFPE come to SUSE to study Chinese language firstly. And, SUSE also provides another 4 languages' bachelor degree programs: English, Japanese, Spanish and Portuguese. These four courses are also welcome student to participate.

Each semester SUSE offers a few subjects taught in English. **The list of the subjects that are offered in English will only be known in the beginning of each semester.** The Calendar for Academic Year 2024/2025 haven't been published yet, normally, the start of Fall Semester will be in the beginning of September, and will end in the beginning of January next year. For Spring Semester will from the beginning of March to the beginning of July.

SUSE doesn't require UFPE students to be enrolled in similar courses at SUSE, they can choose any subjects they want to learn at SUSE. By the way, whatever course UFPE students would be enrolled, the **Mandarin classes are mandatory** for all international students.
